inReach® SE® + Quick Start Guide

GARMIN

inReach SE+ provides global satellite messaging, location sharing and SOS functions on and off the grid via the global Iridium[®] satellite network¹. inReach SE+ uses GPS to provide basic grid navigation and allow you to drop waypoints, mark key locations, track your progress and follow a breadcrumb trail back to base.

Messadind

You can send messages from your inReach device to SMS phone numbers, email addresses, or another inReach devices.

Preset Messages

3 messages created on your Garmin Explore™ account at explore.garmin.com that have predefined content and recipients. Unlimited presets are included on all plan levels. Note: Replies to preset messages count against the monthly allotment when not on a plan with unlimited custom messaging

1. Select Preset Messages

2. Select Send next to the desired message

Ouick Text Messages

Messages created on your Garmin Explore account that have predefined content. Recipients are chosen at the time the message is sent.

Custom Messages

Custom messages can be composed directly on the inReach device through the virtual keypad.

Tracking

Tracking records your path. When you start tracking, your device logs your location and updates the track line on the map at the specified log interval.

2. Select Start Tracking 3. Select Stop Tracking

Note: If you have MapShare[™] enabled, you can share your location through MapShare from the Tracking screen when you start tracking or at any time by selecting Share.

Navigation

You can navigate along a route or to a waypoint on your inReach device.

Routes

A route is a sequence of locations that leads you to your final destination. Routes are created on your Garmin Explore account .

SOS

During an emergency, you can contact the GEOS International Emergency Rescue Coordination Center (IERCC) to request help.

2. Wait for the SOS

countdown

1. Lift the cap (1) and press and hold the SOS button (2)

4. Message with GEOS and other contacts using Quick Texts or custom messages

Note: During an SOS, your location information will be sent to GEOS. If you do not respond via text, GEOS will still contact first responders to initiate a rescue. GEOS will contact your emergency contacts during the SOS.

Pairing to a Mobile Device or Tablet

Use the Earthmate® app to utilize the keyboard and screen on your compatible² mobile device to control many of the functions on your inReach device, even outside of cell range.

Use Earthmate to:

- Download maps to your mobile device
- Start and stop tracking
- Navigate a route and manage waypoints
- Compose, send and receive messages
- Uses the address book on your mobile device
- Get weather reports
- Trigger and cancel an SOS

Pairing the App

- 1. Download the Earthmate app: Apple® and Android[™] versions available
- 2. Log in with your Garmin.com credentials
- 3. Connect with inReach using Bluetooth
- Visit support.garmin.com for detailed instructions.

3. A default SOS text message will be sent to GEOS

5. Cancel the SOS if help is no longer needed

SOS: inReach Explorer+, v4.1.0, UI

Receive weather forecasts, so you can make educated decisions based on local conditions or the destination ahead.

Weather Forecasts

There are three types of forecasts:

- Basic land forecast (counted as a text message)
- Premium land forecast (incurs an additional charge)
- Marine forecast (incurs an additional charge, locations 5 miles from shore)
- 1. Select Weather 2. Select My Location or 3. Garmin Explore[™]

4 . . .

Your inReach account is managed through explore.garmin.com. Within your Garmin Explore account you can manage:

- Devices and subscription plans
 - Preset and Quick Text messages
- Routes, Waypoints and Collections
- MapShare and social settings
- Personal and emergency contacts
- Account information (billing, etc.)

Syncing

After making changes to your Garmin Explore account, you will need to sync your inReach device. Always verify that the data you want is in the Earthmate app, and on your inReach device before you set out on your adventure.

1. From the Plans & Devices tab, select Sync & Update

- 2. Follow the onscreen prompts for syncing
 - Download and install the Sync desktop app
 - Connect the device to the computer via USB
 - Launch the Sync app to start the sync

Testing

Ð

I'O'F

Use Test Messages to check that your device is sending and receiving messages. Five free test messages per month are included on each plan.

1. Select	Test		2. Select Test	3. Wait for a text message confirmation
9:31 AM	Location	100%	9:31 AM to 100% Ensure that the device has a clear view of the sky to complete the test.	9:31 AM 100% Ensure that the device has a clear view of the sky to complete the test.
Test	©© Settings		Warning: Messaging, Tracking, and SOS require an active subscription. Always test your gear before you go.	☆ Waiting for Response
	∢ ∘ • ▶		Test	<u>Cancel</u>

An active satellite subscription is required for live tracking and messaging functions, including SOS

² See <u>Garmin.com/inreachfag</u> for compatibility
